Digital Printing in a Production Environment

I. EXECUTIVE SUMMARY	1
A. INTRODUCTION AND METHODOLOGY	1
B. INTERACTIVE COMPUTER MODEL.....	2
C. CONCLUSIONS	3
1. <i>Provide a Detailed Overview of the Current Production Digital Press Marketplace</i>	<i>3</i>
a. How Big Is the Installed Base?	3
b. How Much Variable Data Printing Is Actually Being Produced on Production Digital Presses?....	4
c. Are Production Digital Presses Being Used at Their Capacity?.....	5
d. How Much Work Are Production Digital Presses Taking From Offset?	6
2. <i>Describe the Customers' Perspective on the Production Digital Press Marketplace</i>	<i>7</i>
a. How Successful Has Digital Printing Been?.....	7
b. What Are the Drivers of Success for the Future of the Digital Printing Market?.....	7
c. What Are the Barriers to Success for the Future of the Digital Printing Market?.....	8
d. What Support Do Customers Want From the Manufacturers?.....	9
e. What Is the Customers' Outlook on the Future of Digital Printing?	9
3. <i>Provide a Quantitative Analysis of Changes in the Production Digital Press Marketplace from 2006 to 2011</i>	<i>9</i>
a. Process Color	10
b. Black and White.....	12
c. Highlight Color	13
4. <i>Provide Estimates of Current and Future Paper Consumption by Production Digital Presses</i>	<i>14</i>
a. Process Color	14
b. Black and White.....	14
5. <i>Understand the Distribution of Physical Work Flow with an Emphasis on Finishing.....</i>	<i>15</i>
a. Digitally Printed Documents Have Unique Finishing Requirements.....	15
b. Most Production Digital Press Owners Make Use of Off-Line Finishing Equipment	15
c. In-Line Finishing Is Expected to Increase as Production Digital Press Buyers Add More In-line Options	15
d. Awareness and Plans to Implement JDF and UP3I Are Low	16
D. MEMBER IMPLICATIONS	17
1. <i>Key Component of This Project: User Modifiable Model</i>	<i>17</i>
2. <i>Implications for Production Digital Press Manufacturers</i>	<i>17</i>
a. General Strategies.....	17
b. Black & White Production Digital Press Manufacturers	19
c. Process Color Production Digital Press Manufacturers	19
3. <i>Implications for Traditional Press Manufacturers.....</i>	<i>20</i>

4.	<i>Implications for Equipment Manufacturers</i>	21
a.	Finishing Equipment Manufacturers	21
b.	CTP System Manufacturers	22
c.	Proofing System Manufacturers	22
5.	<i>Implications for Paper and Synthetic Substrate Manufacturers</i>	22
6.	<i>Implications for Printers and Converters</i>	24
7.	<i>Implications for Film, Plate, Ink, Toner, Chemical and Supplies Manufacturers</i>	25
a.	Toner Manufacturers	25
b.	Ink Manufacturers	25
c.	Proofing Material, Film, Plate, and Chemical Manufacturers	26
8.	<i>Implications for Software & Other</i>	26
II.	INTRODUCTION AND METHODOLOGY	27
A.	INTRODUCTION	27
B.	METHODOLOGY	28
C.	MARKET SEGMENT DEFINITIONS	30
D.	PRODUCTION DIGITAL PRESS TYPES AND SPEEDS	31
III.	QUANTITATIVE SURVEY FINDINGS	35
A.	DIGITAL PRESSES	35
1.	<i>Age of Machine</i>	35
a.	Market Segment Differences	37
2.	<i>Age of Newest Machine</i>	38
3.	<i>Is Newest Production Digital Press B&W or Process Color?</i>	40
4.	<i>Applications Produced on Digital Presses</i>	42
a.	Overall by Presses	42
b.	Press Color/Speed	43
c.	By Market Segment	44
5.	<i>Percentage of Pages Duplexed</i>	46
6.	<i>Percentage of Page Volume With Variable Data</i>	50
7.	<i>Number of Shifts per Week Digital Presses Are Run</i>	54
8.	<i>Traditional Presses Installed at the Same Location as a Digital Press</i>	57
9.	<i>Percentage of B&W Work Run on Pre-Printed Offset Shells</i>	59
B.	SUBSTRATES	60
1.	<i>Percentage of Production Digital Presses Using Each Substrate</i>	61
2.	<i>Average Percentage of Pages Printed on Substrate</i>	64
3.	<i>Changes in Substrate Usage</i>	67
4.	<i>Paper Purchasing Preferences</i>	67
C.	REPLACEMENT CYCLE	71

D.	USED EQUIPMENT MARKET	72
1.	<i>Potential Buyers' Interest in Purchasing Used Equipment</i>	72
a.	Interest in Used B&W Production Digital Presses.....	73
b.	Interest in Used Process Color Production Digital Presses	75
E.	PRODUCTION DIGITAL PRESS PURCHASE PLANS.....	77
1.	<i>Overall Summary of Production Digital Press Purchase Plans</i>	78
a.	Type of Production Digital Press Planned.....	78
b.	Purchase Timing for Production Digital Presses.....	80
c.	Replacement or Addition	80
d.	Planned Use of Variable Data on New Production Digital Press	81
2.	<i>B&W Production Digital Press Purchase Plans</i>	82
a.	B&W Production Digital Press Purchase Plans	82
b.	Replacement Cycles for B&W Production Digital Presses.....	83
c.	Utilization of B&W Production Digital Presses	84
d.	Timing for B&W Production Digital Press Purchases.....	85
e.	B&W Production Digital Presses: Replacement or Addition.....	85
f.	B&W Production Digital Presses: Planned Applications	86
g.	B&W Production Digital Presses: Anticipated Variable Data	87
h.	B&W Planned In-Line Finishing Options	89
3.	<i>Highlight Color</i>	90
4.	<i>Process Color</i>	90
a.	Process Color Production Digital Press Purchase Plans	90
b.	Replacement Cycles for Process Color Production Digital Presses	91
c.	Utilization of Process Color Production Digital Presses.....	92
d.	Timing for Process Color Production Digital Presses Purchases.....	93
e.	Process Color Production Digital Presses: Replacement or Addition	94
f.	Process Color Production Digital Presses: Planned Applications	95
g.	Process Color Production Digital Presses: Anticipated Variable Data	95
h.	Process Color Planned In-Line Finishing Options.....	96
5.	<i>Potential First-Time Production Digital Press Buyers</i>	98
F.	WORKFLOW.....	104
1.	<i>In-Line Finishing Options</i>	104
a.	Current In-Line Finishing Options	104
b.	Planned In-Line Finishing Options	108
2.	<i>Off-Line Finishing Equipment</i>	111
a.	Current Off-Line Finishing Equipment.....	111
b.	Planned Off-Line Finishing Equipment	112
3.	<i>Work Submission Methods</i>	116
a.	Work Submission Definitions	117
b.	Work Submission Methods	118

c.	Work Submission Methods by Market Segment	119
4.	<i>JDF and UP3I</i>	120
G.	CONCERNS FOR MANUFACTURERS TO ADDRESS	122
H.	IMPACT OF DIGITAL PRINT	124
1.	<i>Transition from Traditional to Digital Printing</i>	124
a.	Where the Current Work on Digital Presses Used to Be Done	124
b.	Migration of Work Printed on Traditional Presses to Digital	127
2.	<i>Impact on Demand for Traditional Presses</i>	128
3.	<i>Changes in Page Volume Printed Digitally</i>	133
I.	MARKET SEGMENT OVERVIEW	137
1.	<i>Commercial Printers</i>	138
a.	Black and White Versus Process Color	139
b.	Interest in Used Equipment.....	140
c.	Variable Data	141
d.	In-Line Finishing	141
e.	Substrate Use	141
f.	Top Three Applications Printed.....	141
2.	<i>Quick Printers</i>	142
3.	<i>Digital Imaging Services</i>	144
4.	<i>Transactional Printers</i>	147
5.	<i>Label Printers</i>	150
6.	<i>In-Plants/CRD</i>	152
IV.	QUALITATIVE INTERVIEW FINDINGS	155
A.	SCOPE	155
B.	METHODOLOGY	155
C.	RESEARCH FINDINGS	156
1.	<i>Business Model</i>	157
2.	<i>Future Purchase Plans</i>	171
3.	<i>Market Insights</i>	175
4.	<i>Market Requirements – Messages to the Manufacturers:</i>	185
V.	CASE STUDIES	191
A.	CASE STUDY 1: DION LABEL PRINTING, INC.	191
B.	CASE STUDY 2: EU SERVICES.....	195
C.	CASE STUDY 3: GREAT LAKES INTEGRATED.....	199
D.	CASE STUDY 4: MSP.....	204
E.	CASE STUDY 5: WMSG, INC.....	208
F.	CASE STUDY 6: ENTERPRISE - GLOBAL FINANCIAL SERVICES COMPANY	212

G.	CASE STUDY 7: OFFICE SUPERSTORE	215
VI.	INTERACTIVE COMPUTER MODEL	221
A.	INTRODUCTION	221
B.	PROCESS COLOR PRODUCTION DIGITAL PRESSES	222
1.	<i>Number of Sites Per Market Segment</i>	222
2.	<i>Number of Sites With Process Color Production Digital Presses</i>	223
3.	<i>Installed Base of Process Color Production Digital Presses in 2005</i>	225
4.	<i>Installed Base Projections for 2006-2011</i>	227
a.	Penetration Rates for 2011	227
b.	First-Time Purchases 2006-2011	229
c.	Replacement Purchases 2006-2011	230
d.	Add-On Purchases 2006-2011	231
e.	Total Purchases 2006-2011	231
f.	Impact of the Used Equipment	232
g.	Installed Base of Process Color Production Digital Presses by Speed Class	233
h.	Forecast of Process Color Production Digital Press Installations by Technology (2006-2011)	237
i.	Forecast of Process Color Production Digital Press Installations by Region (2006-2011)	237
5.	<i>Paper Consumption on Process Color Production Digital Presses</i>	238
6.	<i>Capacity Utilization on Process Color Production Digital Presses</i>	242
7.	<i>In-Line Finishing Options on Process Color Production Digital Presses</i>	246
C.	B&W PRODUCTION DIGITAL PRESSES	249
1.	<i>Number of Sites per Market Segment</i>	249
2.	<i>Number of Sites with B&W Production Digital Presses</i>	249
3.	<i>Installed Base of B&W Production Digital Presses in 2005</i>	251
4.	<i>Installed Base Projections for 2006-2011</i>	253
a.	Penetration Rates for 2011	253
b.	First-Time Purchases 2006-2011	255
c.	Replacement Purchases 2006-2011	256
d.	Add-On Purchases 2006-2011	257
e.	Total Purchases 2006-2011	257
f.	Impact of the Used Equipment	258
g.	Installed Base of B&W Production Digital Presses by Speed Class	259
h.	Forecast of B&W Production Digital Press Installations by Technology (2006-2011)	262
i.	Forecast of B&W Production Digital Press Installations by Region (2006-2011)	263
5.	<i>Paper Consumption on B&W Production Digital Presses</i>	263
6.	<i>Capacity Utilization on B&W Production Digital Presses</i>	268
7.	<i>In-Line Finishing Options on B&W Production Digital Presses</i>	272
D.	HIGHLIGHT COLOR PRODUCTION DIGITAL PRESSES	272

VII.	CONCLUSIONS.....	275
A.	PROVIDE A DETAILED OVERVIEW OF THE CURRENT PRODUCTION DIGITAL PRESS MARKETPLACE 275	
1.	<i>How Big Is the Installed Base?</i>	<i>275</i>
2.	<i>How Much Variable Data Printing Is Actually Being Produced on Production Digital Presses? 276</i>	
3.	<i>Are Production Digital Presses Being Used at Their Capacity?</i>	<i>277</i>
4.	<i>How Much Work Are Production Digital Presses Taking From Offset?.....</i>	<i>278</i>
B.	DESCRIBE THE CUSTOMERS' PERSPECTIVE ON THE PRODUCTION DIGITAL PRESS MARKETPLACE 279	
1.	<i>How Successful Has Digital Printing Been?</i>	<i>279</i>
2.	<i>What Are the Drivers of Success for the Future of the Digital Printing Market?.....</i>	<i>280</i>
3.	<i>What Are the Barriers to Success for the Future of the Digital Printing Market?</i>	<i>281</i>
4.	<i>What Support Do Customers Want From the Manufacturers?.....</i>	<i>281</i>
5.	<i>What Is the Customers' Outlook on the Future of Digital Printing?</i>	<i>282</i>
C.	PROVIDE A QUANTITATIVE ANALYSIS OF CHANGES IN THE PRODUCTION DIGITAL PRESS MARKETPLACE FROM 2006 TO 2011	282
1.	<i>Process Color.....</i>	<i>283</i>
2.	<i>Black and White</i>	<i>285</i>
3.	<i>Highlight Color.....</i>	<i>286</i>
D.	PROVIDE ESTIMATES OF CURRENT AND FUTURE PAPER CONSUMPTION BY PRODUCTION DIGITAL PRESSES 287	
1.	<i>Process Color.....</i>	<i>287</i>
2.	<i>Black and White</i>	<i>287</i>
E.	UNDERSTAND THE DISTRIBUTION OF PHYSICAL WORK FLOW WITH AN EMPHASIS ON FINISHING. 288	
1.	<i>Digitally Printed Documents Have Unique Finishing Requirements.....</i>	<i>288</i>
2.	<i>Most Production Digital Press Owners Make Use of Off-Line Finishing Equipment</i>	<i>288</i>
3.	<i>In-Line Finishing Is Expected to Increase as Production Digital Press Buyers Add More In-line Options</i>	<i>288</i>
4.	<i>Awareness and Plans to Implement JDF and UP3I Are Low</i>	<i>289</i>
VIII.	MEMBER IMPLICATIONS.....	291
A.	KEY COMPONENT OF THIS PROJECT: USER MODIFIABLE MODEL.....	291
B.	IMPLICATIONS FOR PRODUCTION DIGITAL PRESS MANUFACTURERS	291
1.	<i>General Strategies</i>	<i>291</i>
2.	<i>Black & White Production Digital Press Manufacturers.....</i>	<i>292</i>
3.	<i>Process Color Production Digital Press Manufacturers.....</i>	<i>293</i>

C.	IMPLICATIONS FOR TRADITIONAL PRESS MANUFACTURERS	294
D.	IMPLICATIONS FOR EQUIPMENT MANUFACTURERS	295
1.	<i>Finishing Equipment Manufacturers</i>	295
2.	<i>CTP System Manufacturers</i>	296
3.	<i>Proofing System Manufacturers</i>	296
E.	IMPLICATIONS FOR PAPER AND SYNTHETIC SUBSTRATE MANUFACTURERS	296
F.	IMPLICATIONS FOR PRINTERS AND CONVERTERS	298
G.	IMPLICATIONS FOR FILM, PLATE, INK, TONER, CHEMICAL AND SUPPLIES MANUFACTURERS	299
1.	<i>Toner Manufacturers</i>	299
2.	<i>Ink Manufacturers</i>	299
3.	<i>Proofing Material, Film, Plate, and Chemical Manufacturers</i>	300
H.	IMPLICATIONS FOR SOFTWARE & OTHER	300
IX.	APPENDIX	301
A.	GLOSSARY	301
B.	COMPANIES INTERVIEWED	309
C.	QUESTIONNAIRE	310

Table of Figures

#	Description	Page
I-1	Overview of the Model	2
I-2	Installed Base of Production Digital Presses in 2005 by Market Segment	4
I-3	% of Pages Printed on the Production Digital Press That Contain Variable Data – Average by Market Segment and Color	5
I-4	How Work on Production Digital Presses Was Produced Two Years Ago	6
I-5	Installed Base of Production Digital Presses	10
I-6	Process Color Production Digital Press Sites 2005 and 2011 by Market Segment	11
I-7	B&W Production Digital Press Sites 2005 and 2011 by Market Segment	12
I-8	In-Line Finishing Options: Installed Versus Planned	16
II-1	# of Production Digital Press Sites and Presses Included in the Sample by Market Segment	31
II-2	# of Production Digital Presses Installed at Sites Surveyed by Market Segment and Color	32
II-3	# of B&W Production Digital Presses Installed at Sites Surveyed by Market Segment and Speed	33
II-4	# of Process Color Production Digital Presses Installed at Sites Surveyed by Market Segment and Speed	34
III-1	When the Production Digital Press Was Installed by Color	36
III-2	When the B&W Production Digital Press Was Installed by Speed	36
III-3	When the Process Color Production Digital Press Was Installed by Speed	37
III-4	When B&W Production Digital Press Was Installed by Market Segment	38
III-5	When Process Color Production Digital Press Was Installed by Market Segment	38
III-6	Year Newest Production Digital Press Was Installed by Color	39
III-7	Year Newest B&W Production Digital Press Was Installed by Market Segment	39
III-8	Year Newest Process Color Production Digital Press Was Installed by Market Segment	40
III-9	Newest Production Digital Press Installed B&W Versus Process Color by Year	41
III-10	Newest Production Digital Press Installed B&W Versus Process Color by Market Segment	41
III-11	Top Three Applications Produced on Press - % of Production Digital Presses Printing the Application by Color	43
III-12	Top Three Applications Produced on Press - % of Production Digital Presses Printing the Application by Color and Speed	44

#	Description	Page
III-13	Top Three Applications Produced on B&W Production Digital Press - % of Presses Printing the Application by Market Segment	45
III-14	Top Three Applications Produced on Process Color Production Digital Press - % of Presses Printing the Application by Market Segment	46
III-15	Percentage of Pages Printed on the Digital Press That Are Printed Duplex	47
III-16	Percentage of Pages Printed on the Digital Press That Are Printed Duplex, Average by Market Segment	48
III-17	Percentage of Pages Printed on the Digital Press That Are Printed Duplex, Average by Color and Speed	49
III-18	Avg. % of Pages Duplexed on B&W Production Press Versus Top Three Applications Printed	49
III-19	Avg. % of Pages Duplexed on Process Color Production Press Versus Top Three Applications Printed	50
III-20	Percentage of Sites Doing Any Variable Data Printing by Market Segment and Color	51
III-21	Percentage of the Pages Printed on the Production Digital Press That Contain Variable Data? Average by Market Segment	52
III-22	Percentage of the Pages Printed on the Production Digital Press That Contain Variable Data? Average by Color and Speed	52
III-23	Percentage of the Pages Printed on the Production Digital Press That Contain Variable Data? Average by Market Segment and Color	53
III-24	Avg. % Pages Containing Variable Data on B&W Production Digital Press Versus Top Three Applications Printed	54
III-25	Avg. % Pages Containing Variable Data on Process Color Production Digital Press Versus Top Three Applications Printed	54
III-26	Number of Shifts Per Week Now and in Two Years By Color	55
III-27	Current Number of Shifts per Week for B&W Production Digital Presses by Market Segment	56
III-28	Estimated Number of Shifts per Week in Two Years for B&W Production Digital Presses by Market Segment	56
III-29	Current Number of Shifts per Week for Process Color Production Digital Presses by Market Segment	57
III-30	Estimated Number of Shifts per Week in Two Years for Process Color Production Digital Presses by Market Segment	57
III-31	Type(s) of Traditional Presses Installed at Production Digital Press Location	58
III-32	Type(s) of Traditional Presses Installed at Production Digital Press Location by Market Segment	59
III-33	Average Percentage of B&W Work Produced on Pre-Printed Offset Shells Now and in Two Years by Market Segment	60
III-34	Percentage of Production Digital Presses Printing on Substrate by Color	61

#	Description	Page
III-35	Percentage of Production Digital Presses Printing on Substrate by Color and Speed	62
III-36	Percentage of B&W Production Digital Presses Printing on Substrate by Market Segment	63
III-37	Percentage of Process Color Production Digital Presses Printing on Substrate by Market Segment	64
III-38	Average % of Substrate Type Used on Production Digital Press by Color	65
III-39	Average % of Substrate Used Type on Production Digital Press by Color and Speed	66
III-40	Average % of Substrate Type Used on B&W Production Digital Press by Market Segment	66
III-41	Average % of Substrate Type Used on Process Color Production Digital Press by Market Segment	67
III-42	Where Respondents Purchase Their Paper	68
III-43	Where Respondents Purchase Their Paper by Market Segment	69
III-44	Preferred Packaging for Sheets of Paper	70
III-45	Preferred Packaging for Sheets of Paper by Market Segment	71
III-46	Production Digital Press Replacement Cycle (Number of Years) by Color	72
III-47	Production Digital Press Replacement Cycle (Number of Years) by Market Segment	72
III-48	Would Consider Purchasing This Type of Production Digital Press Used by Color	73
III-49	Would Consider Purchasing a Used B&W Production Digital Press by Market Segment	74
III-50	Reasons for Considering a Used B&W Production Digital Press	74
III-51	Reasons for Not Considering a Used B&W Production Digital Press	75
III-52	Would Consider Purchasing a Used Process Color Production Digital Press by Market Segment	76
III-53	Reasons for Considering a Used Process Color Production Digital Press	76
III-54	Reasons for Not Considering a Used Process Color Production Digital Press	77
III-55	Purchase (Buy, Rent, Lease) Plans for Production Digital Presses by Color	79
III-56	Production Digital Press Purchase Plans Versus Type of Production Digital Press Owned	80
III-57	Purchase Timing for Production Digital Presses by Color	80
III-58	Planned Production Digital Presses - Replacements Versus Additions by Color	81
III-59	% of Volume on the New Production Digital Press That Will Include Variable Data, Average by Color	82
III-60	Purchase (Buy, Rent, Lease) Plans for B&W Production Digital Presses by Market Segment	83
III-61	B&W Replacement Cycle (Number of Years) by Market Segment	83

#	Description	Page
III-62	Age of Installed B&W Production Digital Presses by Market Segment	84
III-63	Purchase Plans for B&W Production Digital Press Versus Current Number of B&W Shifts Per Week	84
III-64	Timing for B&W Production Digital Press Purchases by Market Segment	85
III-65	Planned B&W Production Digital Presses - Replacements Versus Additions by Market Segment	86
III-66	Device the Planned B&W Production Digital Presses Will Replace	86
III-67	Top Three Applications for Planned B&W Production Digital Presses	87
III-68	% of Volume Printed on Planned B&W Production Digital Press That Will Contain Variable Data	88
III-69	Average % of Volume Printed on Planned B&W Production Digital Presses That Will Contain Variable Data by Market Segment	88
III-70	Planned In-Line Finishing Options for the New B&W Production Digital Presses	89
III-71	Planned In-Line Finishing Options for the New B&W Production Digital Presses by Market Segment	90
III-72	Purchase (Buy, Rent, Lease) Plans for Process Color Production Digital Presses by Market Segment	91
III-73	Process Color Replacement Cycle (Number of Years) by Market Segment	91
III-74	Age of Installed Process Color Production Digital Presses by Market Segment	92
III-75	Purchase Plans for Process Color Production Digital Presses Versus Current Number of Process Color Shifts Per Week	93
III-76	Timing for Process Color Production Digital Press Purchases by Market Segment	93
III-77	Planned Process Color Production Digital Presses - Replacements Versus Additions by Market Segment	94
III-78	Device Planned Process Color Production Digital Presses Will Replace	95
III-79	Top Three Applications for Planned Process Color Production Digital Presses	95
III-80	% of Volume Printed on Planned Process Color Production Digital Presses That Will Contain Variable Data	96
III-81	Average % of Volume Printed on Planned Process Color Production Digital Presses That Will Contain Variable Data by Market Segment	96
III-82	Planned In-Line Finishing Options for the New Process Color Production Digital Presses	97
III-83	Planned In-Line Finishing Options for the New Process Color Production Digital Presses by Market Segment	98
III-84	Purchase (Buy, Rent, Lease) Plans for Production Digital Presses, Potential First-Time Buyers	99
III-85	Purchase Plans for Production Digital Presses Versus Equipment Now Owned, Potential First-Time Buyers	100

#	Description	Page
III-86	Timing for Production Digital Press Purchases, Potential First-Time Buyers	101
III-87	Production Digital Presses – Replacements Versus Additions, Potential First-Time Buyers	101
III-88	Device the New Production Digital Press Will Replace, Potential First-Time Buyers	102
III-89	Top Three Applications for Planned B&W Production Digital Presses, Potential First-Time Buyers	102
III-90	Top Three Applications for Planned Process Color Production Digital Presses, Potential First-Time Buyers	103
III-91	Would Consider Purchasing a Used Production Digital Press, Potential First-Time Buyers by Color	103
III-92	In-Line Finishing Options Installed on the Production Digital Presses	105
III-93	In-Line Finishing Options Installed on the Production Digital Presses by Color	106
III-94	In-Line Finishing Options Installed on the Production Digital Presses by Color and Speed	106
III-95	In-Line Finishing Options Installed on the B&W Production Digital Presses by Market Segment	107
III-96	In-Line Finishing Options Installed on the Process Color Production Digital Presses by Market Segment	108
III-97	Planned In-Line Finishing Options for the New B&W Production Presses	109
III-98	Planned In-Line Finishing Options for the New Process Color Production Presses	110
III-99	Own Off-Line Finishing Equipment Used for Digitally Printed Applications by Market Segment	111
III-100	Off-Line Finishing Equipment Used for Digitally Printed Applications (Most Common Shown)	112
III-101	Purchase Plans for Off-Line Finishing Equipment for Digitally Printed Applications by Market Segment	112
III-102	Off-Line Finishing Equipment Planned for Digitally Printed Applications (Most Common Shown)	113
III-103	Off-Line Finishing Equipment Planned for Digitally Printed Applications (Most Common Shown) by Market Segment	114
III-104	Purchase Timing for Off-Line Finishing Equipment for Digitally Printed Applications	114
III-105	Purchase Timing for Off-Line Finishing Equipment for Digitally Printed Applications by Type	115
III-106	Purchase Timing for Off-Line Finishing Equipment for Digitally Printed Applications by Market Segment	115
III-107	Would Consider Used Off-Line Finishing Equipment for Digitally Printed Applications by Market Segment	116
III-108	How Customers Submit Work for Digital Printing	119
III-109	How Customers Submit Work for Digital Printing by Market Segment	120
III-110	Current and Planned Implementation of JDF	120
III-111	Current and Planned Implementation of JDF by Market Segment	121

VI-1	Overview of the Interactive Model	222
VI-2	Universe of Sites in 2005 by Market Segment and Country	223
VI-3	Penetration Rates for Process Color Production Digital Presses in 2005 by Market Segment and Country	224
VI-4	Number of Sites With Process Color Production Digital Presses in 2005 by Market Segment	224
VI-5	Number of Process Color Production Digital Presses in 2005 by Market Segment and Speed	225
VI-6	Number of Process Color Production Digital Presses in 2005 by Market Segment and Region	226
VI-7	Number of Process Color Production Digital Presses in 2005 in Mixed Shops by Market Segment	227
VI-8	Penetration Rates for Process Color Production Digital Presses in 2005 and 2011 by Market Segment and Country	228
VI-9	Net Change in the Number of Sites With Process Color Production Digital Presses From 2005 to 2011 by Market Segment and Country	229
VI-10	Distribution of Change in the Number of Process Color Production Digital Press Sites From 2006 to 2011	229
VI-11	First-Time Purchases of Process Color Production Digital Presses From 2006 to 2011	230
VI-12	Replacement Purchases of Process Color Production Digital Presses From 2006 to 2011	230
VI-13	Add-On Purchases of Process Color Production Digital Presses From 2006 to 2011	231
VI-14	Total Purchases of Process Color Production Digital Presses From 2006 to 2011	232
VI-15	Total Purchases of Process Color Production Digital Presses From 2006 to 2011 by Speed	232
VI-16	New Versus Used Process Color Production Digital Press Sales From 2006 to 2011	233
VI-17	Installed Base of Process Color Production Digital Presses and Sites From 2005 to 2011	234
VI-18	Installed Base of Process Color Production Digital Presses From 2005 to 2011 by Speed	234
VI-19	Yearly Additions To the Installed Base of Process Color Production Digital Presses From 2005 to 2011 by Speed	234

#	Description	Page
VI-20	Installed Base of 50 to 60 ppm Process Color Production Digital Presses From 2005 to 2011 by Market Segment	235
VI-21	Installed Base of 61 to 90 ppm Process Color Production Digital Presses From 2005 to 2011 by Market Segment	235
VI-22	Installed Base of 91 ⁺ ppm Process Color Production Digital Presses From 2005 to 2011 by Market Segment	236
VI-23	Installed Base of Process Color Production Digital Presses 2005 to 2011 by Market Segment	236
VI-24	Percentage Split by Printing Technology of Yearly Installations of 91 ⁺ ppm Process Color Digital Presses From 2006 to 2011	237
VI-25	Yearly Installations of Process Color Digital Presses From 2006 to 2011 by Printing Technology	237
VI-26	Average Number of 8 ½" x 11" Sheets Per Month in 2005 Used by Process Color Production Digital Presses by Market Segment and Speed	238
VI-27	Total Number of 8 ½" x 11" Sheets Per Month in 2005 Used by Process Color Production Digital Presses by Market Segment and Speed	239
VI-28	Total Number of 8 ½" x 11" Sheets Per Month in 2005 Used by Process Color Production Digital Presses by Substrate Type and Speed	240
VI-29	Sheet to Ton Conversion Factor for Process Color Production Digital Press Substrates	240
VI-30	Monthly Paper Consumption (Short Tons) in 2005 by Process Color Production Digital Presses by Substrate and Weight - Example for Commercial Printer 1 to 19 Employees	241
VI-31	Monthly and Annual Paper Consumption (Short Tons) in 2005 by Process Color Production Digital Presses by Substrate Type and Speed	242
VI-32	Capacity Utilization of Process Color Production Digital Presses in 2005 by Market Segment and Speed	243
VI-33	Capacity Utilization of Process Color Production Digital Presses in 2011 by Market Segment and Speed	245
VI-34	Percentage of Process Color Production Digital Presses With In-Line Stitching Option in 2005 by Market Segment	246
VI-35	Number of Process Color Production Digital Presses With In-Line Stitching Option in 2005 by Market Segment	247
VI-36	Percentage of Process Color Production Digital Presses With In-Line Stitching Option in 2011 by Market Segment	247
VI-37	Number of Process Color Production Digital Presses With In-Line Stitching Option in 2011 by Market Segment	248
VI-38	Number of Process Color Production Digital Presses With In-Line Finishing Options for 2005 and 2011	249
VI-39	Penetration Rates for B&W Production Digital Presses in 2005 by Market Segment and Country	250
VI-40	Number of Sites With B&W Production Digital Presses in 2005 by Market Segment	250

#	Description	Page
VI-41	Number of B&W Production Digital Presses in 2005 by Market Segment and Speed	251
VI-42	Number of B&W Production Digital Presses in 2005 by Market Segment and Region	252
VI-43	Number of B&W Production Digital Presses in 2005 by Market Segment and Mixed Shop	253
VI-44	Penetration Rates for B&W Production Digital Presses for 2005 and 2011 by Market Segment and Country	254
VI-45	Net Change in the Number of Sites With B&W Production Digital Presses From 2005 to 2011 by Market Segment and Country	255
VI-46	Distribution of Change in the Number of B&W Production Digital Press Sites From 2006 to 2011	255
VI-47	First-Time Purchases of B&W Production Digital Presses From 2006 to 2011	256
VI-48	Replacement Purchases of B&W Production Digital Presses From 2006 to 2011	256
VI-49	Add-On Purchases of B&W Production Digital Presses From 2001 to 2011	257
VI-50	Total Purchases of B&W Production Digital Presses From 2006 to 2011	258
VI-51	Total Purchases of B&W Production Digital Presses From 2006 to 2011 by Speed	258
VI-52	New Versus Used B&W Production Digital Press Purchases From 2006 to 2011	259
VI-53	Installed Base of B&W Production Digital Presses and Sites From 2005 to 2011	260
VI-54	Installed Base of B&W Production Digital Presses From 2005 to 2011 by Speed	260
VI-55	Yearly Additions to the Installed Base of B&W Production Digital Presses From 2005 to 2011 by Speed	260
VI-56	Installed Base of 91-200 ppm B&W Production Digital Presses From 2005 to 2011 by Market Segment	261
VI-57	Installed Base of 201 ⁺ ppm B&W Production Digital Presses From 2005 to 2011 by Market Segment	261
VI-58	Installed Base of B&W Production Digital Presses 2005 to 2011 by Market Segment	262
VI-59	Percentage Split by Printing Technology of Yearly Installations of 201 ⁺ B&W Production Digital Presses From 2006 to 2011	263
VI-60	Yearly Installations of B&W Production Digital Presses From 2006 to 2011 by Printing Technology	263
VI-61	Average Number of 8 ½" x 11" Sheets Per Month in 2005 Used by B&W Production Digital Presses by Market Segment and Speed	264
VI-62	Total Number of 8 ½" x 11" Sheets Per Month in 2005 Used by B&W Production Digital Presses by Market Segment and Speed	265
VI-63	Total Number of 8 ½" x 11" Sheets Per Month in 2005 Used by B&W Production Digital Presses by Substrate Type and Speed	265
VI-64	Sheet to Ton Conversion Factor for B&W Production Digital Press Substrates	266

#	Description	Page
VI-65	Monthly Paper Consumption (Short Tons) in 2005 by B&W Production Digital Presses by Substrate and Weight - Example for Commercial Printer 50 to 99 Employees	267
VI-66	Monthly and Annual Paper Consumption (Short Tons) in 2005 by B&W Production Digital Presses by Substrate Type and Speed	268
VI-67	Capacity Utilization of B&W Production Digital Presses in 2005 by Market Segment and Speed	269
VI-68	Capacity Utilization of B&W Production Digital Presses in 2011 by Market Segment and Speed	271
VI-69	Number of B&W Production Digital Presses with In-Line Finishing Options for 2005 and 2011	272
VI-70	Estimated Number of Installations for Highlight Color Production Digital Presses 2006 to 2011 by Market Segment	273
VII-1	Installed Base of Production Digital Presses in 2006 by Market Segment	276
VII-2	% of the Pages Printed on the Production Digital Press That Contain Variable Data – Average by Market Segment and Color	277
VII-3	How Work on Production Digital Presses Was Produced Two Years Ago	279
VII-4	Installed Base of Production Digital Presses 2005 to 2011	282
VII-5	Process Color Production Digital Press Sites 2005 and 2011	284
VII-6	B&W Production Digital Press Sites 2005 and 2011	285
VII-7	In-Line Finishing Options: Installed Versus Planned	289
